AG 2010 Organizing Committee is planning to include in the symposium program

- 1) Sessions with formal presentations, and/or
- 2) Informal conversational sessions, and/or
- 3) Hybrid sessions, which will have formal presentations first and informal conversations later.

Submissions for Face-to-Face or for Virtual Participation are both accepted.

Both kinds of submissions will have the same reviewing process and the accepted papers will be included in the same proceedings.

Pre-Conference and Post-conference Virtual sessions (via electronic forums) will be held for each session included in the conference program, so that sessions papers can be read before the conference, and authors presenting at the same session can interact during one week before and after the conference. Authors can also participate in peer-to-peer reviewing in virtual sessions.

All Submitted papers/abstracts will go through three reviewing processes:

- (1) Double-blind (at least three reviewers),
- (2) Non-blind, and
- (3) Participative peer reviews. These three kinds of review will support the selection process of those papers/abstracts that will be

accepted for their presentation at the conference, as well as those to be selected for their publication in JSCI Journal.

Authors of accepted papers who registered in the conference can have access to the evaluations and possible feedback provided by the reviewers who recommended the acceptance of their papers/abstracts, so they can accordingly improve the final version of their papers. Non-registered authors will not have access to the reviews of their respective submissions.

Authors of the best 10%-20% of the papers presented at the conference (included those virtually presented) will be invited to adapt their papers for their publication in the Journal of Systemics, Cybernetics and Informatics.

Best regards,

AG 2010 Organizing Committee
