

**ICEGOV2010**  
**4th International Conference on**  
**Theory and Practice of Electronic Governance**  
**25 - 28 October 2010, Beijing, China**

[www.icegov.org](http://www.icegov.org)

**CALL FOR SUBMISSIONS**

**IMPORTANT DATES**

- First Submission Deadline - 7 June 2010 (extended)  
Notification Deadline - 2 August 2010  
Final Submission Deadline - 23 August 2010  
Author Registration Deadline - 23 August 2010

**PATRONS**

- National Development and Reform Commission, People's Republic of China
- Ministry of Industry and Information Technology, People's Republic of China
- National School of Administration, People's Republic of China

**ORGANIZERS**

- Electronic Governance Programme, UNU-IIST, Macao SAR
- Electronic Government Research Center,  
National School of Administration, China
- Center for Technology in Government, University at Albany,  
USA
- Computing Laboratory, University of Oxford, UK
- School of International Relations and Public Affairs,  
Fudan University, China

- State Information Center, China

## **PUBLICATIONS**

- Accepted papers will appear in the proceedings published by ACM Press, ISBN 978-1-4503-0058-2
- Selected papers will appear in the special issue of Government Information Quarterly, Elsevier

## **CONTACT**

Email: [icegov@icegov.org](mailto:icegov@icegov.org)

URL: [www.icegov.org](http://www.icegov.org)

---

## **1. INTRODUCTION**

---

The fast pace of technological innovation is contributing to major changes in governments, societies, and the world economy. Innovations like web 2.0 and semantic web, cloud and grid computing, pervasive broadband access and ubiquitous services, software as service, global digital identity and others have reached a level of impact that goes well beyond the use of computers and the Internet. In particular, the impact of technological innovation on government has been profound, with increased collaboration between agencies to deliver seamless services, increased participation of citizens in policy- and decision-making, delivery of location-aware public services, and new paradigms like connected governance, ubiquitous and ambient public services, knowledge-

based administration, participatory budgeting, government chief information officers, and local electronic governance, among others. The International Conference on Theory and Practice of Electronic Governance (ICEGOV) series focuses on the use of technology to transform relationships between government and citizens, businesses, civil society and other arms of government (Electronic Governance). The series looks beyond the traditional focus on technology-enabled transformation in government (Electronic Government), towards establishing foundations for good governance and for sustainable national development.

The Series, established by the Electronic Governance Programme at UNU-IIST in 2007, aims to bring together practitioners, developers and researchers from government, academia, industry, non-governmental organizations and UN organizations to share the latest in theory and practice of Electronic Governance. Following its first three editions in Macao (ICEGOV2007), Cairo (ICEGOV2008) and Bogota (ICEGOV2009), ICEGOV established its identity as:

- 1) A Global Conference - ICEGOV consistently attracts submissions from more than 45 countries, including over 60% representation from developing and transition countries.

- 2) A Multi-Stakeholder Conference - ICEGOV is well attended by all

major stakeholders of technology-enabled innovation in government: government, academia, industry and NGOs.

- 3) A Networking Conference - ICEGOV brings participation from across thematic, national, and development borders, with common interests in transformational use of technology in government.

4) A Research and Practice Conference - ICEGOV includes a healthy balance of research-, practice- and solution-related work - looking at technology, at the processes surrounding its implementation and management, or at the wider context of Electronic Governance.

5) A Capacity Building Conference - ICEGOV features a rich program of invited talks, invited sessions, tutorials, workshops, panel

discussions, posters, demos, etc. all taught, moderated or organized by leading researchers and practitioners in the area.

6) An International Development Conference - The focus on Electronic Governance helps consider how government investments in technology, resulting in expected social and economic benefits, contribute to the fulfillment of the national development goals.

7) A UN Conference - With international development focus, with the

Electronic Governance Programme at UNU-IIST as the founder and the main force behind its editions, and with several UN organizations being actively involved, ICEGOV exhibits a strong UN character.

In addition, ICEGOV promotes close interactions between government, academia, industry and NGO stakeholders so that each group can contribute to as well as benefit from the interactions with others:

- The stakeholders from government can share the knowledge of concrete initiatives as well as lessons learnt and challenges faced when carrying them out. In return, they can learn about the latest

research results, and how they are implemented by industry, non-governmental organizations and other governments to address the challenges they face.

- The stakeholders from academia can share the models, theories and frameworks which extend the understanding of Electronic Governance and upon which concrete solutions can be built. In return, they can learn about concrete challenges faced by governments, gain access to concrete cases, and identify opportunities to implement and deploy research prototypes.

- The stakeholders from industry and NGOs can share technological and socio-organizational solutions to be used in government practice. In return, they can learn about the challenges faced by governments, and the latest research findings available for developing solutions.

---

## **2. CALL FOR SUBMISSIONS**

---

The 4th International Conference on Theory and Practice of Electronic Governance (ICEGOV2010) will take place in Beijing, China, during 25 - 28 October 2010, under the patronage of the National Development and Reform Commission, Ministry of Industry and Information Technology, and National School of Administration, People's Republic of China; co-organized by: Electronic Governance Programme, UNU-IIST, Macao SAR; Electronic Government Research Center, National School of Administration, China; Center for Technology in Government, University at Albany, USA; Computing Laboratory, University of Oxford, UK; School of International Relations and Public Affairs, Fudan University,

China; and State Information Center, China.

The ICEGOV2010 Program Committee invites submissions of unpublished, original work - completed or ongoing - in the form of papers, case studies, demonstrations and posters:

- 1) Papers - Describing mature work in one or more of the research, practice or solution aspects of Electronic Governance, with proven or potential capacity to advance the state-of-the-art in the field.
- 2) Case Studies - Analyzing Electronic Governance initiatives, whether research, practice or solutions, to identify critical factors contributing to their success or failure.
- 3) Demonstrations - Demonstrating how solutions, possibly obtained through research, are being applied in the practice of Electronic Governance, consequently giving rise to new research.
- 4) Posters - Presenting new ideas and ongoing work related to research, practice or solutions for Electronic Governance, with proven or potential capacity for bridging two or more dimensions.

The contributions can originate from: (1) Government - experiences, case studies and lessons learnt while planning, developing, executing and evaluating Electronic Governance initiatives; (2) Academia - foundations of Electronic Governance, including development, validation and implementation of relevant theories, models and specifications; or (3) Industry and NGOs - technologies, methods and tools upon which Electronic Governance solutions - systems, processes, services and organizations - can be built.

ICEGOV2010 particularly welcomes: (a) cross-sector contributions that aim to establish connections between research, solutions and practice of Electronic Governance, and succeed in effectively communicating their findings from researchers to solution providers, from solution providers to public managers, from public managers to

researchers; (b) contributions that cross the borders of the relevant disciplines - Information Technology, Computing, Public Administration and Policy, Political Science, Information Science, Linguistics, Law, Economics, Sociology, Business Administration and others; and (c) contributions on one or more of the practice, solutions or research aspects of Electronic Governance.

---

### **3. TOPICS**

---

Possible topics cover the foundations - models and frameworks, capacity building, evaluation, knowledge management, communities of practice, future trends, etc. as well as the whole lifecycle of Electronic Governance initiatives from planning, through architecture and implementation, to operations:

#### **PLANNING**

---

Law and regulations

Funding arrangements

Readiness assessment

Policy development

Strategy development

Action plans

Partner management

Stakeholders

Leadership

Coordination

Reform and alignment

## **ARCHITECTURE**

---

Interoperability  
Enterprise architectures  
Standards  
Best practices  
Agency collaboration  
Information-sharing  
One-stop government  
Connected governance  
Agile government  
Multi-channel delivery  
Innovation systems

## **IMPLEMENTATION**

---

Acquisition  
Procurement  
Technical infrastructure  
Electronic public services  
Service middleware  
Services and applications  
Negotiation and contracts  
New technology adoption  
Project management  
Program management  
Organizational change

## **OPERATIONS**

-----  
Service agreements  
Monitoring  
Software maintenance  
Adoption and scale-up  
Access and accessibility  
Digital content  
Digital rights  
Digital divide  
Benefits management  
Risk management  
Performance management  
-----

#### **4. SUBMISSION PROCESS**

-----

All submissions should conform to the following process:

- 1) Preparation - All contributions should be written in English and prepared using the Word template <http://www.icegov.org/resources/word-template.doc> with page limits of: Papers - 10 pages, Case Studies - 6 pages, Demonstrations - 2 pages and Posters - 2 pages.
- 2) Submission - All contributions should be submitted, without any author names or affiliations, through the conference submission website at <http://www.easychair.org/conferences/?conf=icegov2010> by the First Submission Deadline.
- 3) Review - All submitted contributions will undergo a double-blind review by the Program Committee and the authors will be notified

about acceptance or rejection decisions by the Notification Deadline.

- 4) Revision - Accepted contributions must be revised to address reviewer comments and resubmitted using <http://www.easychair.org/conferences/?conf=icegov2010> by the Final Submission Deadline together with the signed copyright form <http://www.icegov.org/resources/copyright-form.doc>.

All accepted contributions will appear in the conference proceedings on the condition that at least one author registers before the Author Registration Deadline and presents the contribution at the conference.

---

## 5. PUBLICATION

---

As for ICEGOV2007, ICEGOV2008 and ICEGOV2009, the proceedings of ICEGOV2010 will be published by ACM Press in the International Conference Proceedings Series, ISBN 978-1-4503-0058-2, available in hardcopy and electronically in the ACM Digital Library during the conference. Selected contributions will also appear in a special issue of Government Information Quarterly, published by Elsevier.

---

## 6. AWARDS

---

Best Submission Awards will be selected in three categories:

- Foundations - The submission that makes the best contribution to the development of Electronic Governance theories, policies, strategies and action plans
- Practice - The submission that presents the most innovative

Electronic Governance initiative, with the greatest impact potential on Electronic Governance practice and the overall development context

- Foundations and Practice - The submission that best links Electronic Governance foundations and practice - how the practice can improve foundations and how foundations can strengthen practice

---

## **7. SPONSORSHIP**

---

Authors of accepted submissions will be able to apply for sponsorship to partially cover the costs of attending the conference (registration, hotel or both), with preference given to the authors from developing countries. At most one application will be accepted per submission.

---

## **8. PROGRAM**

---

Besides presentations of submitted contributions - Papers, Case Studies, Demonstrations and Posters, the program will include five types of submissions by-invitation: Keynotes, Tutorials, Workshops, Thematic Sessions and Round-Table Discussions. The program will also include a Doctoral Colloquium and series of social events for networking and community building.

---

## **9. COMMITTEES**

---

### **CONFERENCE COMMITTEE**

General Co-Chair - Peter HADDAWY - UNU-IIST, Macao SAR

General Co-Chair - HONG Yi - National School of Administration, China

General Co-Chair - Theresa PARDO - Center for Technology in Government, University at Albany, USA

Program Co-Chair - Jim DAVIES, Computing Laboratory, University of Oxford, UK

Program Co-Chair - Tomasz JANOWSKI, e-Governance Programme, UNU-IIST, Macao SAR

Organization Co-Chair - Elsa ESTEVEZ, e-Governance Programme, UNU-IIST, Macao SAR

Organization Co-Chair - JIANG Yuanfu, e-Government Research Center, NSA, China

Organization Co-Chair - Lei ZHENG, Department of Public Administration, Fudan University, China

Financial Chair - Wendy HOI, UNU-IIST, Macao SAR

Publicity Co-Chair - Adeboyega OJO, e-Governance Programme, UNU-IIST, Macao SAR

Publicity Co-Chair - SHEN Zhiqin, e-Government Research Center, NSA, China

Sponsorship Chair - Center for Technology in Government, University at Albany, USA

Session Co-Chair - Steve HARRIS, Computing Laboratory, University of Oxford, UK

Session Co-Chair - Shuhua LIU, Department of Public Administration, Fudan University, China

Community Co-Chair - Zamira DZHUSUPOVA, e-Governance Programme, UNU-IIST, Macao SAR

Community Co-Chair - YU Shiyang, State Information Center, China

## **ADVISORY COMMITTEE**

John Carlo BERTOT, University of Maryland, USA

Wojciech CELLARY, Poznan University of Economics, Poland

Sharon DAWES, Center for Technology in Government, University at Albany, USA

R.K. SHYAMASUNDAR, Tata Institute of Fundamental Research, India

TOU Chi Man, Macao SAR Government, Macao SAR

XU Xiaoping, National School of Administration, China

WANG Changsheng, State Information Center, China

ZHU Qianwei, Fudan University, China

## **AWARDS COMMITTEE**

Marijn JANSSEN, Delft University of Technology, Netherlands

KIM Seang-Tae, National Information Society Agency, Republic of Korea

Christine LEITNER, Center for European Public Administration (CEPA), Danube University Krems, Austria (Chair)

Maria Isabel MEJIA JARAMILLO, Programa Gobierno en Linea, Colombia

Saleem ZOUGHBI, UNESCWA, Lebanon

## **PROGRAM COMMITTEE**

Gbenga ADEBUSUYI, National e-Government Strategies (NeGST), Nigeria

Hamideh AFSARMANESH, University of Amsterdam, The Netherlands

Jean-Pierre AUFFRET, International Academy of CIO, USA

Johanna Ekuaw AWOTWI, Center for e-Governance, Ghana

Majed AYYAD, NextLevel Technology Systems, Palestinian Territory

Mesfin BELACHEW, ICT Development Agency, Ethiopia  
Deepak BHATIA, World Bank, USA  
Nikolaj BJORNER, Microsoft Corporation, USA  
Luis CAMARINHA-MATOS, UNINOVA, Portugal  
Alejandra CECHICH, Universidad Nacional del Comahue, Argentina  
Antonio CERONE, UNU-IIST, Macao SAR  
Yannis CHARALABIDIS, National Technical University of Athens,  
Greece  
Gaston CONCHA, Universidad Tecnica Federico Santa Maria, Chile  
Flavio CORRADINI, University of Camerino, Italy  
Canada Rowena CULLEN, Victoria University of Wellington, New  
Zealand  
Jim DAVIES, Computing Laboratory, University of Oxford, UK (PC  
Co-Chair)  
Rahul DE, Indian Institute of Management Bangalore, India  
Elsa ESTEVEZ, e-Governance Programme, UNU-IIST, Macao SAR  
Pablo FILLOTRANI, Universidad Nacional del Sur, Argentina  
Matthias FINGER, Ecole Polytechnique Federale de Lausanne,  
Switzerland  
Kokichi FUTATSUGI, Japan Advanced Institute for Science and  
Technology, Japan  
Helani GALPAYA, LIRNEasia, Sri Lanka  
Jose Ramon GIL-GARCIA, Centro de Investigacion y Docencia  
Economicas, Mexico  
Jeremy GIBBONS, Computing Laboratory, University of Oxford, UK  
GONG Zhiguo, University of Macau, Macao SAR  
Steve HARRIS, Computing Laboratory, University of Oxford, UK  
Tomasz JANOWSKI, e-Governance Programme, UNU-IIST, Macao  
SAR (PC Co-Chair)

Marijn JANSSEN, Delft University of Technology, The Netherlands  
Luiz Antonio JOIA, Brazilian School of Public and Business  
Administration, Brazil  
Atreyi KANKANHALLI, National University of Singapore, Singapore  
Hannes KARKOWSKI, GTZ, Germany  
Andrea KAVANAUGH, Community Information Systems, Virginia  
Tech, USA  
Jay KESAN, University of Illinois, USA  
Ralf KLISCHEWSKI, German University in Cairo, Egypt  
Padmanabhan KRISHNAN, Bond University, Australia  
Miriam LIPS, Victoria University of Wellington, New Zealand  
Shuhua LIU, Fudan University, China  
Ann MACINTOSH, University of Leeds, United Kingdom  
Peter MAMBREY, Fraunhofer FIT, Germany  
Aimal MARJAN, Ministry of ICT, Afghanistan  
Sehl MELLOULI, University of Laval, Canada  
Vassilis MENEKLIS, University of Piraeus, Greece  
Hrushikesh Mohanty, University of Hyderabad, India  
Steve MUTKOSKI, Microsoft Corporation, USA  
Toshio OBI, Waseda University, Japan  
Adegboyega OJO, e-Governance Programme, UNU-IIST, Macao  
SAR  
Arvo OTT, e-Governance Academy, Estonia  
Marco PERES USECHE, Universidad Externado de Colombia,  
Colombia  
Vasillios PERISTERAS, Digital Enterprise Research Institute  
(DERI), Ireland  
Miguel PORRUA, Organization of American States, USA  
Scott ROBERTSON, University of Hawaii, USA

Ritobaan ROY, GTZ, India

Pallab SAHA, National University of Singapore, Singapore

Charles SCHWEIK, University of Massachusetts at Amherst, USA

Maddalena SORRENTINO, University of Milan, Italy

Evgeny STYRIN, Moscow State University, Russia

Ivar TALLO, e-Governance Academy, Estonia

Pauline TAN, Government Chief Information Office, Singapore

Giri Kumar TAYI, Information Systems, University at Albany, USA

Maurice TCHUENTE, University Yaounde I, Cameroon

Roland TRAUNMULLER, University of Linz, Austria

Shu-Fen TSENG, Yuan Ze University, Taiwan

Faaig UMAR, National Center for IT, Maldives

Maria WIMMER, University of Koblenz, Germany

Lei ZHENG, Fudan University, China
