

ANNEX to the LEFIS FINAL REPORT

COPIES OF PRODUCTS AND RESULTS

PART 1

CO-ORDINATOR'S NOTE

According to the general instructions, three copies of all project products and results have to be attached to the final Report. In order to present this documentation in a systematically sorted manner, the Annex has been split into two volumes.

The first volume (ANNEX – PART 1) reproduces the list of all the LEFIS outcomes, products and results expressed in the summary table 3.1, with an indication of whether their justification can be found on the LEFIS website, on associated websites or in paper-format.

The second one (ANNEX – PART 2) comprises copies of all those project outcomes which are available in paper-form, as well as copies of other LEFIS-related documentation, such as press notes, leaflets and summaries of internal and external assessments.

Please find in the table below a list of all the LEFIS outcomes as expressed in the summary table 3.1. The cell on the right indicates the **location** where a copie of the outcome can be found. This may be either a website (the LEFIS website or an associated website) or the ANNEX – PART 2 if the copy is available in paper-format. In the former case, please note that sections and subsections of the website are also mentioned, as well as username and password information if it is required.
