The verification of financial capacity shall not apply to natural persons in receipt of scholarships, public bodies or international organisations referred to in article 43 of financial Regulation. Public body in that sense means, that it is either guaranteed by the state (for example, public authorities are required to cover any losses it may make) or it is legally incapable of bankruptcy or its income is fixed by law (documentation required). **The applying organisation is requested to supply a copy of the following documents:** The profit and loss accounts and the balance sheet for the last financial year for which the accounts have been closed.

The external audit report will certify the accounts for the last financial year available and give an assessment of the financial viability of the applicant.
- The Commission is required to proof the legal status of the applying organisation (legally registered statutes, articles of association, official registration certificate or other document of equal legal value, as applicable) (see Annex 4).

SECTION 1 - IDENTIFICATION

1. Project/Network title

LEFIS - APTICE. Legal Framework for the Information Society II

Translation either in EN, FR or DE of the project/network title

LEFIS - APTICE

2. Summary of the project/network

Objectives, Target groups, Main activities and Expected outputs.

The LEFIS APTICE Thematic network pursues to develop and implement a cross-national teaching and research infrastructure in the legal field which adequately responds to the needs raised by the information and knowledge society. Upon the base of previous EU-supported initiatives, it is expected to improve the current legal education practices by adapting them to the new social, political and regulative environment, whereby legal education is broadly conceived as covering related technological, social, economic, ethical, and policy-making issues. A major focus will be thus on the improvement of the teaching system resulted from the LEFIS experience in 2003/04, and on its integration into the ongoing EU high education policies. The Network aims, in short, at developing (1) coherent training and study programmes, providing for a teaching offer in Information Society Law which effectively matches the social needs and expectations according with the Tuning methodology; (2) a certification and implementation system which assures the consolidation, exploitation and dissemination of those programmes; and (3) an educational, research and policy-making infrastructure capable of carrying out studies and regulative proposals on the governance of the information society. The targeted groups are teaching staff and students; public and private third parties; academic and professional associations; and policy-makers at all levels.

Applies only for ERASMUS:

Contribution of the project/network to the aims and priorities described in the European Policy Statement of your institution. If possible, please provide the same information within regard for partner institutions, submitted with its application for the Erasmus University Charter.

The UZ-EPS considers internationalisation as a quality condition, promotes the European dimension in its studies and an active role in the Erasmus, Comett, Lingua, Socrates, Leonardo, Tempus or Alfa programmes. It encourages the participation in international networks, whereby searching for a leadership in them. It has a particular concern for the quality of all academic and management processes of its actions and aims further to contribute to the EU higher education space by updating its whole academic offer to the Bologna and Prague policies, which includes the consolidation of the European credit system, and by fostering thematic networks and European modules that consolidate its educational, research and societal links in Europe and worldwide. The LEFIS-TN has been conceived in the light of this EPS, and not only strengthens the international value of the UZ academic and research actions, but further represents an unique opportunity to develop the aforementioned strategic goals in the short term
